The Personalised Digital Learning Programme (PDLP)

Briefing for Parents

The National Digital Literacy Programme (NDLP) and the PDLP

An Overview

The National Digital Literacy Programme (NDLP)

1. The NDLP was launched in March 2020 to help students **strengthen their digital literacy and acquire digital skills** needed to navigate an increasingly digitalised world.

2. Under the NDLP, every secondary school student will **own a school-prescribed Personal Learning Device (PLD)**. Students may use funds from their Edusave Account to pay for the PLD.

Intended Outcomes of the PDLP

The use of the PLD for teaching and learning aims to:

Support the Development of Digital Literacy

Support Self-Directed and Collaborative Learning

Enhance Teaching and Learning

Students' Experiences

Our device provided was a laptop each.

Learning with a PLD
Sembawang Secondary School

Note: The information contained in this deck of slides is customised according to our school's context and the device selected.

How will your child/ward use the PLD?

At Sembawang Secondary School, your child/ward will be using the PLD for...

- Use of PLD for active learning in all subjects
- Alternative assessments/ authentic learning tasks that require research, digital creation, and collaborative learning
- Coding
- Interdisciplinary project-based learning

Supporting Students in the Safe and Effective Use of the Devices

Cyber Wellness Concerns Identified by Local Studies/Surveys

Harmful Online Content

Gaming and associated risks

Cyberbullying

Excessive social media use

* Refer to Slide 68 for the references of the research papers cited in this slide.

Supporting Students in the Safe and Effective Use of the Devices

To enable a safer digital environment for learning with the use of PLDs, schools have implemented the following measures:

- School rules on digital device use

- Classroom management and routines

- Cyber Wellness Education in CCE

- Partnering parents/guardians to support students in their use of technology for learning

- MOE Device Management Application (DMA) to support a safer digital environment for learning

Classroom Management and Routines

Before Leaving Home

- Check that your PLD and mouse is in your bag.

During Lesson

- Only login to your PLD when your teacher instructs you to.

- Close your screen when your teacher is giving instructions or teaching.

- Use only functions or programs permitted by teacher.

- Mute your PLD unless permission is obtained from the teacher for instructional purposes.

** When going to special rooms i.e. Art Room / Kitchen, D&T and Science lab, carry your PLD with closed lid

Classroom Management and Routines

During recess or lunch break

- Keep your PLD in your locker. Never leave your PLD unattended / under the desk.

Reaching Home

- Charged your PLD.

- Place your PLD and mouse into your bag when PLD is charged / done using PLD.

Cyber Wellness Education in CCE

Educating students on Cyber Wellness

Cyber Wellness lessons will feature significantly in the Character and Citizenship Education (CCE). The broad topics covered in Cyber Wellness are:

- Cyber Use

- Cyber Identity

- Cyber Relationships

- Cyber Citizenship

- Cyber Ethics

Cyber Wellness Education in CCE

Throughout their Secondary School education, students will learn about:

- Balanced use and self control

- Cyber bullying and Upstanding

- How to be a positive influence online

- How to handle online falsehoods

- How to manage social media (peer influence, emotions, echo chambers)

- Online relationship and Online safety (grooming, self disclosure)

- To respect intellectual property rights

Cyber Wellness Programmes

In addition to these lessons, through various programmes in school, students will continue to learn to be respectful, safe, and responsible users of technology.

Parents'/Guardians' Role

- Parents/guardians play a crucial role in guiding your child/ward to use devices responsibly and safely. We would like to partner parents/guardians so that students are well supported in their use of technology for learning.

- As parents/guardians, you can help in the following ways:
  - Model good digital habits for your child/ward e.g., parents/guardians not using devices during family meals.
  - Know your child/ward well and have conversations with your child/ward about safe and responsible use of technology.
  - Discuss and come up with ground rules for internet/device usage that both your child/ward and you can agree with.
  - Encourage your child/ward to use productivity tools on his/her PLD, to organise information and simplify tasks for efficiency.

Supporting Resources
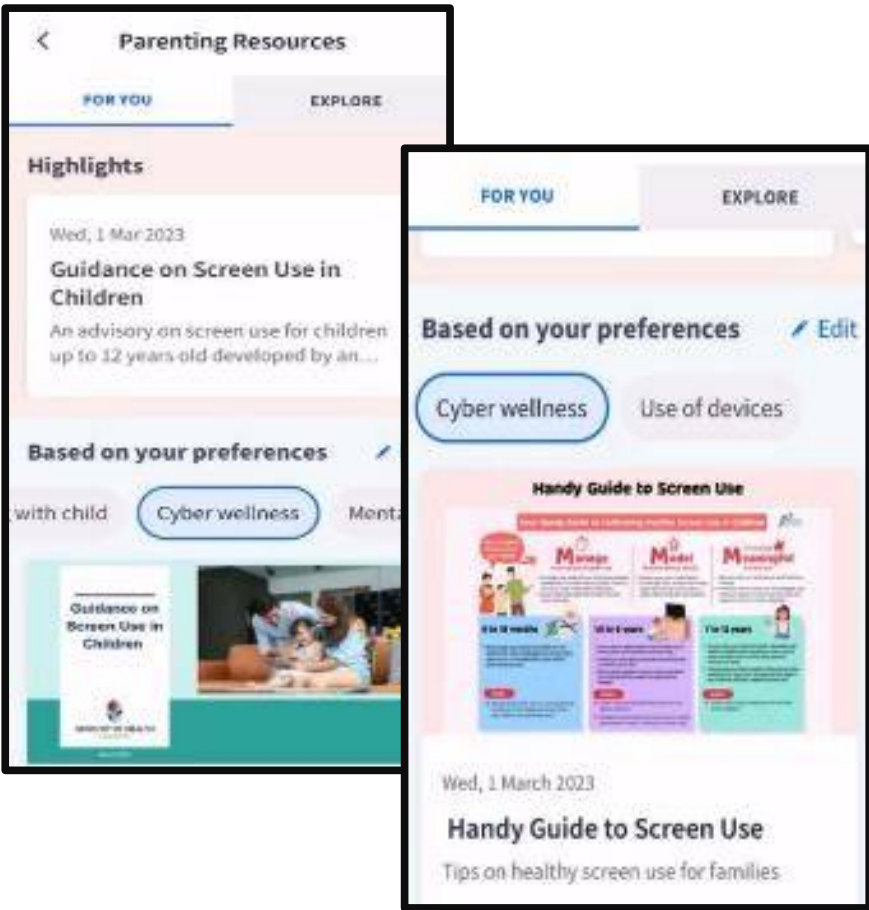

Here are some resources that you can refer to:

A. Parent Kit

B. Bite-sized tips and advice **via Parentingwith.MOEsg Instagram page**

C. Resources from MOE and other agencies *(available on resources repository in Parents Gateway)*
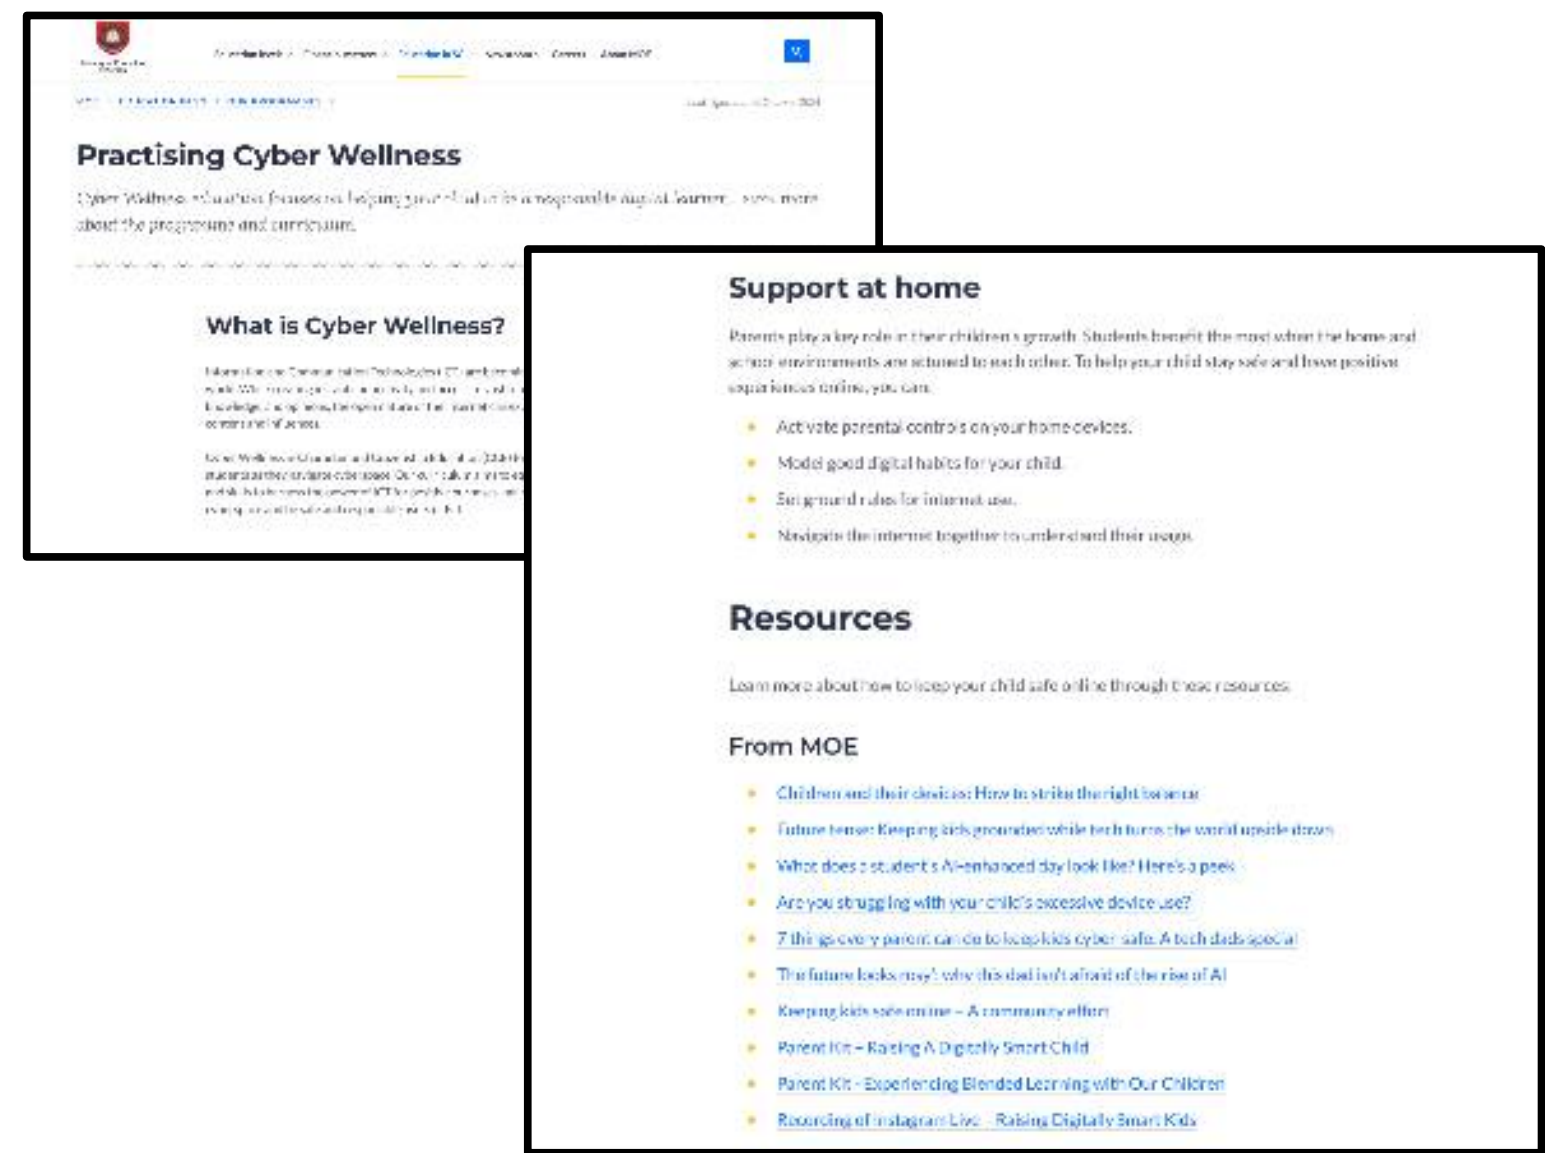

Supporting Resources

D. Parenting for Wellness Toolbox for Parents and **Parenting for Wellness Website** on Parent Hub

The Parenting for Wellness initiative provides bite-sized resources (practical tips and strategies) on building strong parent-child relationships, supporting your child's mental well-being and parenting in the digital age.

E. More resources are available via **the MOE Cyber Wellness Webpage**

OFFICIAL(OPEN)\NON-SENSITIVE

Supporting Resources

F. Parent Handbooks (I) and (II) on Learning with a Personal Learning Device

These Handbooks provide tips on supporting your child in the use of PLDs for learning and are shared via the PG notification together with the letter to purchase PLDs.

Role of the MOE Device Management Application (DMA) in Providing a Safer Digital Environment for Learning

MOE DMA

- The MOE DMA solution for Chromebook, Lightspeed Systems®, is an app that will be installed on all students' PLDs to support their safe and responsible use of devices.

- The DMA will be funded by MOE.

- The installation of the MOE DMA applies to both devices purchased through the school and any student-owned devices that parents/guardians opt for the student to use instead of the school-prescribed PLD.

- The MOE DMA will be installed after the collection of the device. Students will be guided on the installation.

- The MOE DMA will be uninstalled from the device when students graduate or leave the school.

In-School DMA Settings (Default)

Schools will determine DMA settings for **in-school use**. As a default, these settings will continue to be in place after school as well:

- MOE and the school will set the level of web content filtering, including filtering objectionable content or content that may not be conducive to teaching and learning (e.g., online messaging, pornography, gambling, or websites containing extremist content).[1]
- School hours are defined to be from **6:30 am to 2 pm** and after school hours from **2 pm to 10:30 pm**. The device will shut down at **10:30 pm** by default.[2]
- The school will determine the applications and programs to be installed to support teaching and learning.

[1] YouTube is not blocked by default as teachers use YouTube for teaching and learning. However, YouTube videos that are categorised as harmful by YouTube Restricted and Lightspeed Smart Play are blocked
[2] Schools have the flexibility to customise the following:
   - start of school hours, provided they are **no earlier than 6:30am**;
   - end of school hours / start of after-school hours (no restriction);
   - End of after-school hours / start of device sleep hours, provided it is **no later than 10:30pm**.

After-School DMA Parent Options

1. After-School DMA Parent Options provide parents with the flexibility in managing their child's/ward's use of the PLD after school hours.
2. The following tables outline the different levels of restrictions, controls, and monitoring for each DMA option after school hours.

Default	Option A	Option B
Default Setting (Note: This will apply if no alternative options are chosen)	**DMA settings can be modified by Parents/Guardians after school hours**	**DMA will be inactive after school hours[1]**
For parents/guardians who want their child's/ward's use of the PLD to be restricted only to teaching and learning, and prefer to leave it to the school to decide on DMA settings after school hours.	For parents/guardians who prefer to take charge of the level of restrictions for their child's/ward's use of the PLD after school hours regulated by the DMA.	For parents/guardians who do not want their child's/ward's use of the PLD after school hours to be regulated by the DMA at all.

[1] No data will be collected after school hours when the DMA is inactive.

- Having default school settings continue after school hours is the best option for parents/guardians who prefer not to, or do not feel ready to manage their child's/ward's device use on their own.
- Parents/guardians can request to change their choice of DMA settings, which is the existing practice.

After-School DMA Parent Options

	Default Setting (This will apply if no Alternative Options are chosen)	**Alternative Setting:** **Option A** (DMA settings can be modified)	**Alternative Setting:** **Option B** (DMA will be inactive only after school hours)
Protect students from objectionable content	Web content filtering will include, and not limited to the following categories: • Violent/extremist content • Sexual/pornographic content • Suicide/self-harm content • Cyberbullying content • Content endangering public health • Gambling-related content	Parents/Guardians will be able to include additional web content filtering by requesting school block any harmful website in addition to major social media websites (e.g., YouTube, Pinterest, X, Instagram, Facebook). However, parents/guardians cannot allow access to web content that is filtered out under the Default Setting. Parents can pause internet access after school hours.	No content filtering after school hours if a student logs in to the Chromebook via his/her personal Google Account.

After-School DMA Parent Options

	Default Setting (This will apply if no Alternative Options are chosen)	Alternative Setting: Option A (DMA settings can be modified)	Alternative Setting: Option B (DMA will be inactive only after school hours)
Reduce distractions from learning through control of applications	Parents/Guardians and students will be unable to install additional Chrome extensions and/or applications.	Parents/Guardians will be able to install additional Chrome extensions and/or applications by submitting a request to the school. As these applications will be accessible both during and after school hours, please ensure that the requested applications support your child's/ward's learning.	Parents/Guardians and/or students will be able to install additional Chrome extensions and/or applications after school hours via the Google Play Store, using the parent's/student's personal Google account. These applications will not be accessible during school hours as students will have to login using their student iCON account.

After-School DMA Parent Options

	Default Setting (This will apply if no Alternative Options are chosen)	**Alternative Setting: Option A** (DMA settings can be modified)	**Alternative Setting: Option B** (DMA will be inactive only after school hours)
Limit screen time	The school will define the specific hours during which the PLD is allowed to access the internet.	Parents/Guardians can modify the amount of screen time for their child/ward by requesting the school set sleep hours (by selecting 1 prescribed option) on their child's/ward's PLD.[2]	No limitation on duration of screen time after school hours. Sleep hours are not enforced.[3]

[2] During school hours, the screen time limits set by the school will override parents/guardians' settings.

[3] It is not recommended to install other parental controls (e.g., Google's Family Link) as this could result in conflicting settings between school and parent controls. It may result in unexpected issues where some controls such as screen time restrictions may not work as intended.

After-School DMA Parent Options

	Default Setting (This will apply if no Alternative Options are chosen)	**Alternative Setting: Option A** (DMA settings can be modified)	**Alternative Setting: Option B** (DMA will be inactive only after school hours)
Monitor students' cyber activities	Parents/Guardians will not be able to track their child's/ward's browser history.	Parents/Guardians can track their child's/ward's browser history after school hours via. the Lightspeed parents' portal. A Filter Portal Weekly Report can also be emailed to them.	Parents/Guardians will not be able to track their child's/ward's web browser history.
Provision of Parent Account	X	✔	X

Support for Parents/Guardians

Parents/guardians may wish to consider the following questions to decide the After-School DMA Parent Option that best suits your child/ward.

A. Child's/ward's current device usage habits
- How much time does my child/ward spend on their device?
- How well is my child/ward able to regulate their device usage on their own?
- Does my child/ward get easily distracted while doing online learning?

B. Parents'/Guardians' involvement
- How confident and familiar am I with managing my child's/ward's cyber wellness?
- Are there existing routines and open conversations on the use of the Internet at home?
- Am I aware of how to prevent different types of cyber threats that my child/ward might face?

Data Collected by the MOE DMA

1. The MOE DMA does **<u>NOT</u>** collect any of the following data:
   - Login IDs and passwords entered into websites or into any applications
   - Actions performed (e.g., posts, online comments, items added to a shopping cart, etc.) when visiting websites and using apps
   - Documents and photos stored in the PLDs
   - PLD location
   - Webcam videos and microphone recordings

2. Parents may update their personal data (e.g., email addresses, names) by contacting the school, in accordance with the Personal Data and Protection Act (PDPA).

Data Security

- All user data collected through the MOE DMA will be stored in secure servers managed by appointed DMA Vendors with stringent access controls and audit trials implemented.

- Data such as device information, email address of students and parents, device information will be deleted when the student graduates or leaves school. Website URLs accessed by students will be deleted at the end of each term.

- The MOE DMA solutions used are cloud-based Software-as-a-Service (SaaS) solutions and are trusted solutions that have been operating for many years. They have also been subject to regular security reviews and assessments by independent reviewers.

Data Security

- The MOE DMA solutions have sufficient security robustness to ensure that the data collected is properly stored and protected. MOE will also subject the DMA Vendors to regular security system audits based on tender requirements.

- To prevent unauthorised access, DMA Administrators and DMA Vendors will be required to access their accounts using 2-factor authentication or the equivalent to ensure proper accountability for information access and other activities performed. There will be regular account reviews and audits for DMA Administrators' and DMA Vendors' accounts.

Device and Funding Information

Sembawang Secondary School's PLD

The school will be using the **Lenovo Chromebook 500e Gen 4s** for teaching and learning.

Total cost of the bundle includes 4-year warranty and 4-year insurance with GST: **$676.80**

- Model: 500E Chromebook Gen 4S
- Processor: Intel Processor N150
- Memory (size, type, speed): 8GB, LPDDR5, 4800MT/s
- Storage (type and size): 64GB eMMC

Sembawang Secondary School's PLD

The school chose the device because of:

- portability
- durability
- T&L Affordances

- **Model: 500E Chromebook Gen 4S**
- **Processor: Intel Processor N150**
- **Memory (size, type, speed): 8GB, LPDDR5, 4800MT/s**
- **Storage (type and size): 64GB eMMC**

PLD Bundle

Device Bundle includes
- Model: Lenovo Chromebook 500e Gen 4s - Processor: Intel N150 - Memory (GB): 8 GB - Storage (GB): 64GB

Your child's/ward's PLD will come with the **Enhanced Device Bundle** which includes:

- 4-year warranty and
- 4-year insurance (which includes 2 repairs or 1 replacement claim)

Please note that the price of the PLD Bundle may appear to be higher than similar models on the retail market as the price of those devices usually does not include extended warranty and insurance coverage.

Insurance Coverage

The package includes:

Insurance Coverage	Claimable
• Fire • Lightning • Power Surges • Accidental e.g water spillage, drop etc • Theft due to forcible entry • Robbery * Accidental loss will not be covered by insurance.	*2 repairs or 1 replacement claim (4-year insurance)

Technical Support for Students' Devices

Technical support will be provided to students through:

- Service Desk set up in school during breaks and after school on a weekly basis
  - Troubleshooting of device issues
  - Solve connectivity issues
  - Collection of devices to be sent for repairs

Funding Support for Singapore Citizen (SC) Students

- **The cost of the device bundle can be paid using your child's/ward's Edusave account,** after setting aside provision for payment of miscellaneous fees.

- To ensure the affordability of devices, MOE has provided Edusave top-ups from 2020 to 2023 to all eligible Singaporean students in primary and secondary schools. In 2025, MOE has provided a $500 Edusave top-up for students aged 13-16 years old.

- These top ups are on top of the annual $290 credited into the Edusave account for Secondary School students and $230 for Primary School students.

What's Next?

Parental Consent for Procurement

1. Parents/Guardians can access the **Parental Consent for the Purchase of Personal Learning Device (PLD)** via a Parents Gateway (PG) notification* that will be sent to you on 6 Jan 2026

2. Parents/Guardians who want to use Edusave funds for the PLD (for Singapore Citizens students only), please access: https://go.gov.sg/edusaveformsgso by 16 Jan 2026 to set up a **PDLP Standing Order** as this was not applicable during primary school.

* Parents/Guardians without access to PG can request for the hardcopy letter via your child's/ward's form teacher.

For Singapore Citizens (SC) Students

Time Frame	Activity

16 Jan 2026	1. Submit:
	    a. consent to PLD purchase via the PG notification which includes the following:
	        • Intent to Purchase Personal Learning Device (PLD);
	        • Authorisation Form for the Collection of PLD
	    b. the Standing Order (SO) for the use of Edusave Account via https://go.gov.sg/edusaveformsgso (for Singapore Citizen students only) to set up a PDLP SO
	Parents without access to PG can submit their consent via hardcopy.

23 Feb 2026 (Estimated)	Collection of devices by students

For Permanent Residents / International Students

Time Frame	Activity
16 Jan 2026	1. Submit consent to PLD purchase which includes the following: • Intent to Purchase Personal Learning Device (PLD); • Authorisation Form for the Collection of PLD to the school General office
To Be Advised	Parent/Guardian to make payment via Giro/PayNow
23 Feb 2026 (estimated)	Collection of devices by students

Collection of Devices

Your child/ward will be collecting his/her device in school **from Week 8 Term 1 2026.**

If you would like to personally/have another adult to verify the condition of the device during collection with your child/ward:

- You may collect the device personally or appoint an adult proxy to do so **at the vendor's service/collection centre***

- Your child/ward would need to bring the device to school and arrange for the school's IT department to install the DMA.

Please approach the school for further advice or clarification if you would like to make this arrangement.

*Parents/Guardians (or adult proxy) will **<u>not</u>** be able to collect the PLD from the school.
